# Технические характеристики на устройства переработки Slurry fox КОМПАНИИ GOLZ

# SLURRYFOX SFP 647

The portable solution for dewatering industrial slurry

By its innovative and compact design, the Slurryfox SFP 647 effectively separates solids for reuse or proper disposal.

Its innovative system and design, make the Slurryfox an economical and ecological benefit.

The SFP 647 is the green solution for proper disposal of concrete slurry in the concrete industry.

**The 100 % pneumatic operated filter press can be attached with standard or high volume pump.**

- Innovative and environmentally friendly
- Rugged and compact steel construction
- Mobile for jobsite processing
- Reuse water multiple times
- Solids can be recycled or disposed
- Reuse water multiple times

## FUNCTIONALITY SFP 647

- Economic and environmentally friendly
- Solid and compact steel construction
- Portable for different job-site installations
- Forklift base for easy setup and transportation
- Separate control unit includes full operation installation as pneumatic air supply, slurry pump and pneumatic/hydraulic converter and control panel.

Two hydraulic cylinders are driven by a pneumatic-hydraulic converter which presses the filter chambers together so that the solids and the water are separated.

# SLURRYFOX SFP 8L

The economical solution in construction industry for the separation and filtration of drilling and sawing slurry

---

Powered 100% by air, the new SFP 8L is the portable solution for concrete slurry processing. Separation of solids and water allows for compliant disposal.

Consisting of four elements: container, chamber filter press, control unit and air compressor. Compact, simple to operate and efficient.

The included slurry box has a capacity of 140 gal (400 l) and can be used as cover during transport.

Because of its compact dimensions the SFP 8L can be used at each workplace.

Its innovative system and compact dimensions make the "Slurryfox" an economical and ecological benefit.

**GÖLZ "Slurryfox" is the new solution to compliant slurry disposal.**

Innovative and environmentally friendly

- Rugged and compact steel construction
- Portable for jobsite processing
- Reuse water multiple times
- Solids can be recycled or disposed

# SLURRY FOX SFP 3L

The mobile solution for your day to day operation

---

**Portability:**The Slurryfox SFP 3L is designed for sawing and drilling contractors who require portability on the jobsite for water recycling and reuse.

**One-Man operation:** The filter press incorporates many of the same components as the Slurryfox SFP 8L but is built so that it can be handled by one person.

**360° closed-loop concept:** The SFP 3L is the ideal solution for slurry water processing at the source, or on the truck, utilizing the “360°” closed-loop concept for water recycling.

Powered by a single-phase air compressor, the new SFP 3L is the most efficient solution for concrete slurry processing. Separation of solids and water allows for compliant disposal.

Consisting of three elements – container, chamber filter press and control unit – the SFP 3L is the most compact, mobile, simple to operate and efficient filter press on the market.

The new patented airbladder technology allows for a lightweight and compact design of the SFP 3L – weighs just 79 kg (174 lbs) for easy transport.
